

***markilux* 730/830**

Drop-arm cassette awnings with gas piston tensioned arms.
Made-to-measure shading, as and where you require it

markilux 730/830

Drop-arm cassette awnings with gas piston tensioned arms
Adjust the awning so you get just the amount of shade you need.

design features

- compact, square and discreet the cassette profile made of extruded aluminium is only 95 mm in height
- when retracted the cover is protected from the weather by the cassette, which encloses it completely.
- for long-lasting attractiveness the awning has been powder coated.
- one-piece covers made from widely woven, plain awning fabrics make it possible to do away with seams entirely.
- in the case of manual operation with a markilux stainless steel winding handle - quality to get to grips with

technical highlights

- sturdy, self-supporting cassette made of extruded aluminium
- extremely solid, stainless steel side plate sheathed in plastic and powder coated
- operation by means of a smooth gearbox and universal joint
- sturdy, attractive front profile with spring-assisted closing mechanism - closes the cassette automatically as the awning is retracted
- gas pistons in the arms ensure that the cover stays taut

optional accessories

- awning covers made of acrylic material or sunsilk snc with self-cleaning effect. The cover joints are ultrasonically bonded to give a neater appearance without unsightly stitching.
- hard-wired motor drive (optionally with automatic controls) for simple, relaxed operation.
- radio-controlled motor with radio remote control for ease of use
- an easily installed, radio control sun and wind sensor guarantees comfort and a degree of safety.
- the telescopic accro bars allow fixture on balconies where there is nowhere to fix the arms

- Larger widths can be supplied as coupled units
- The many combinations available in arm and cover length make it possible to adjust the amount of shading to individual requirements
- Interior operation. For manual operation from within the building
